Purchasing UsaveMe Tokens involves substantial risk and may lead to a loss of substantial or entire amount of money or other assets involved. Prior to purchasing UsaveMe Tokens, potential holders should carefully assess and take into account the risks, including those listed in any other documentation.

Cryptographic tokens may be subject to expropriation and/or theft; hackers or other malicious groups or organizations may attempt to interfere with our system/network in various ways, including malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks, surfing, and spoofing which may result in the loss of your cryptographic tokens or the loss of your ability to access or control your cryptographic tokens. In such an event, there may be no remedy, and holders of cryptographic tokens are not guaranteed any remedy, refund, or compensation.

The regulatory status of cryptographic tokens and digital assets is currently unsettled in many jurisdictions, varies among jurisdictions, and can be subject to significant uncertainty. It is possible that in the future, certain laws, regulations, policies, or rules relating to cryptographic tokens, digital assets, blockchain technology, or blockchain applications may be implemented which may directly or indirectly affect or restrict cryptographic token holders' right to acquire, own, hold, sell, convert, trade, or use cryptographic tokens.

Abstract

Children's **in porverty** faces humiliation, discrimination, and seclusion from the rest of society all around the world. With the COVID-19 epidemic, they are now at even higher danger of social exclusion, poverty, and lack of access to critical services like the lack of food, shelter, education and an overburdened healthcare system.

We believe that every child deserves the best opportunity for the bright future. There are many platforms that are working for the betterment of the children's life but our platform is different because it includes crypto funding. In this whitepaper we will discuss Usaveme Token a platform created to help shielding children of needs around the world.

Introduction

Even before the pandemic children were deprived of at least one basic need, such as education, health, shelter, nutrition, sanitation, or water. The world is at a fork in the road. Either we protect and expand the years of progress gained for children's rights, or we bear the consequences. Poverty is something that no child should have to endure. Nonetheless, the number of children living in low- and middle-income nations who are below the national poverty line is at an all-time high.

As we know the world is moving towards digitalization we can overcome all these issues by using crypto currencies as it is paving the path for new assets. Currently, the crypto market offers a diverse selection of coins and tokens. People are increasingly using crypto currency as a means of donating to beneficial charities. One of them is Usaveme token. This is created to support the platform that can bring happiness in children's life. By joining this platform, you will become the part of the larger global community aimed at assisting and protecting children.

About Usaveme Token

Usaveme is an XRP Token with a total supply of 93,000,000 tokens. The XRP Ledger (XRPL) is a decentralized, public block chain that is managed by a global development community. It's quick, efficient, and trustworthy.

It provides developers with a robust open-source basis for executing on the most demanding projects all while not harming the environment. Payments on the XRP Ledger are settled in four seconds. XRP can scale to accommodate the same throughput as Visa and handles 1,500 transactions per second 24 hours a day, 7 days a week. Usaveme is a platform that connects people all around the world to sponsor a kid or donate to a child-focused charity.

Benefits of using this platform

Problem Solving Platform

The platform helps in the protection of children in need of food, healthcare, Shelter and education all across the world. We make it possible for a sponsor to keep track of and manage the child he or she is supporting. The sponsors will have complete control over the child's communication with his or her parent, guardian, or organization. Usaveme serves as a bridge between the two.

Sponsor a child

While using our platform when you are sponsoring the child you are making an investment in that child's life by ensuring that he or she receives basic needs that she is deprived of. You are empowering a child to be a contributing citizen of society by providing shelter, healthcare, and education
.
The money from sponsorships and donations will not go to the Usaveme platform, and we will not take a cut; 100% of the money will go to the child or organization.
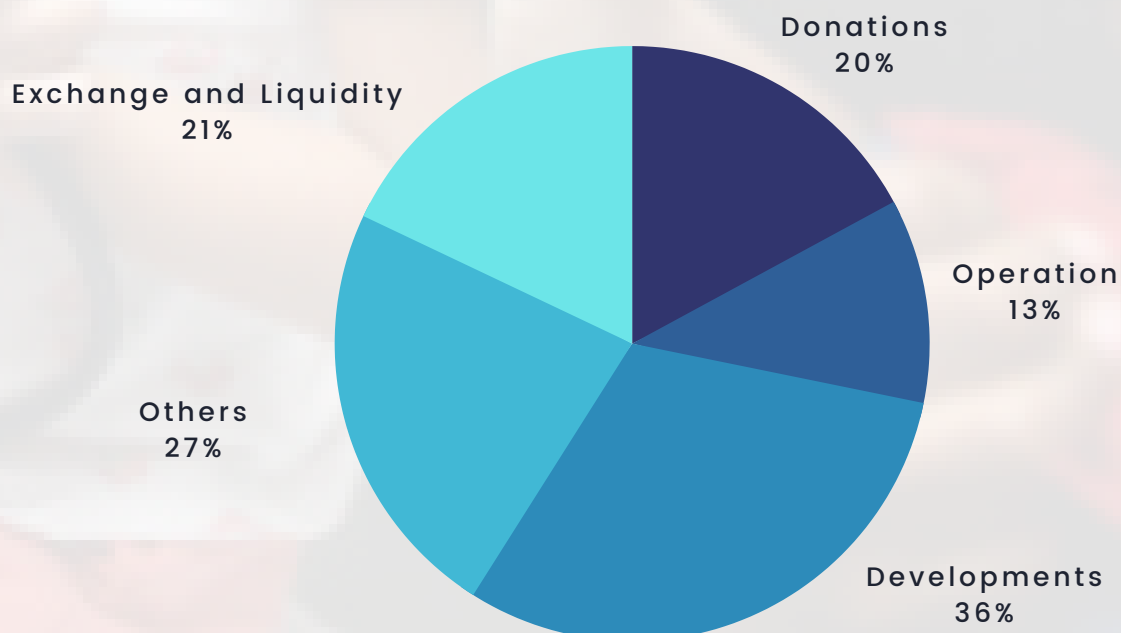

Strong platform

It is strong platform because after buying Usaveme token you are not just giving benefits to children's but to yourself too. You will get rewards for investing in it. Usaveme is a strong platform that works with local organizations and reaching out to crypto exchanges, tokens and coins creators to help kids in need globally.

Tokenomics

Usaveme Is a Token on the XRP Ledger with 93,000,000 Tokens.

- Reaching out to exchanges
- Developing the platform for agents to register
- Reaching out to helping hands

- Developing the platform for registering a child and an organization
- Writing a Whitepaper
- Writing a marketing plan
- Children registration begins.
- Register the business

1ST Quarter: 2022

3RD Quarter 2022

- Reaching out to exchanges to get listed
- Second Airdrop
- Reaching out to helping hand
- Marketing/promoting

- Creating a reward token for the community
- Distribution to approved organizations
- Continue to reach out to exchanges

4Th Quarter 2022

Conclusion

We examined Usaveme and its goals in this Whitepaper. We also supplied certain arrangements that, in our opinion, will aid in the success of the project and its establishment of a key position among comparable ventures. Usaveme is a tokenize platform created to help shielding children. The main goal of this platform is to provide food, Shelter, education and healthcare to kids. It is based on XRP Ledger a decentralized, public block chain that is managed by a global development community. After investing or purchasing this token 20% of Usaveme token will go to donation. By using this platform you can change a child's world through sponsoring. Sponsoring a child is the most effective approach to combat poverty, all the money will be used for children's basic needs. You will also get rewards and incentives while investing in.
